

Season's Greetings

2016 has come and gone, and with a few of us wondering where it all disappeared to. We only have to look in our own metropolitan backyard to see the examples of quality architecture under construction that prove our efforts in 2016 have again been well spent.

Melbourne was once again awarded the *World's Most Liveable City* – 6 years in a row, and it is no unremarkable coincidence that infrastructure was one of the big factors in this contest. We are all very proud to live in such an amazingly diverse, progressive, culturally rich, and visually breathtaking city that continues to “Trump” the world.

“If you can dream it, you can do it”

Walt Disney

Our News

At Perrett Simpson 2016 has seen us working on projects that seem to continually grow outwards, upwards ... and sometimes downwards (into basements). Numerous multi-level, large scale, developments have been designed and documented in our office over various market sectors, including schools, apartments, community housing, childcare centres, and multi-storey residences.

Revit and AutoCAD drafting has been applied to these large scale and mid-scale developments, which has enabled us to co-ordinate effectively with the Architect and project team. If you have a project/client in mind that may benefit from using this service, or would like to discuss our Revit capabilities in more detail, please feel free to contact our office and talk to Alan or Nick.

2016 National Architecture Award

Residential Architecture - Houses (New)

Point Lonsdale House

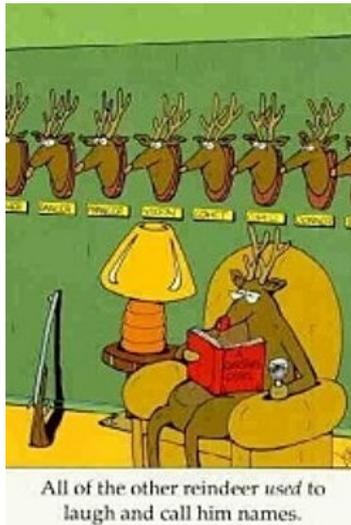

by

NMBW Architecture Studio

Congratulations to the team at NMBW on their recent award winning house at Point Lonsdale. Perrett Simpson are proud to be associated with this outstanding project.

Christmas Banter

Christmas Office Hours

We would like to thank you for your support throughout the year and wish everyone a very Merry Xmas and look forward to working with you all in 2017.

Our office will close on Wednesday 21st of December, 2016 and re-open on Wednesday 11th of January, 2017.
